JULIE CAILLER

EDUCATION

PhD in Computer Science

2023

LIRMM, University of Montpellier | France

- Thesis topic: "Designing an Automated Concurrent Tableau-Based Theorem Prover for First-Order Logic".
- Advisors: David Delahaye, Hinde Lilia Bouziane and Simon Robillard.
- Jury: Gilles Dowek, Philipp Rümmer, Serenella Cerrito, Damien Doligez, Marie-Laure Mugnier, Olivier Hermant.
- This thesis focuses on the use of the method of analytic tableaux in the field of automatic deduction in first-order logic. In particular, it demonstrates how the use of concurrency can overcomes most of the fairness challenges, improve the management of theories in tableaux and the interactions with proof assistants. These results led to the creation of the automated theorem prover Goéland.

Master Degree in Computer Science

2020

University of Montpellier | France

- Courses mainly focused on big data, artificial intelligence and natural language processing.
- Class representative.
- Rank: 3rd/18 (Semester 1) 1st/17 (Semester 2) 2nd/12 (Semester 3).

Bachelor in Computer Science

2018

University of Montpellier | France

- Introduction courses on a wide range of Computer Science subjects, including programming, logic, graph algorithms and network.
- Class representative.
- Rank: 7th/113.

SKILLS

Topics

Logic, automated & interactive theorem proving, parallel programming.

*

Programming Skills

Go, Python, Coq, Ocaml, C/C++, Java, SQL, ATEX, Git

*

Languages

- French (Mother tongue)
- English (Professional proficiency)
- Spanish (Beginner)
- German (Beginner)

RESEARCH EXPERIENCES

Q Postdoctoral Researcher

Since Sept. 2023

University of Regensburg | Regensburg, Germany

 Position within the Chair of Theoretical Computer Sciences of University of Regensburg.

Q Reliability Assessment in a Decision Support Tool

Jun. 2019 - Aug. 2019

INRAE | Montpellier, France

- Developpement of metrics to take in account uncertainties in user feedback.
- Visualisation and integration of these metrics in the DOCAMEX project.
- Survey among users to take into account their feedback and improve the tool.

Q Rubik's Cube Solver

Oct. 2018 - May 2019

University of Montpellier | Montpellier, France

- Detection of the current configuration of the cube using a camera.
- Resolution using multiple algorithms (shortest moves, didactic).
- 3D animation of the resolution's steps.

Q An Application for Multi-modal Travel

Jun. 2018 - Jul. 2018

LIRMM and Faciligo | Montpellier, France

- Conception and implementation of a module which matches the shortest path in multi-modal travel mode.
- Taking into account constraints regarding the client's disabilities in the context of cotravel.

Q Shannon Switching Game

Oct. 2017 - May 2018

University of Montpellier | Montpellier, France

- Implementation of the connection game created by C. Shannon.
- Grid generation (winning for a given player), movement animation.
- Single or two-players mode, artifical intelligence with difficulty levels.

Softwares

Goéland
 Authors: Julie Cailler, Johann Rosain, David Delahaye

2022

2022

Goéland is an automated theorem prover using a concurrent procedure for the tableau method for first-order logic. It is implemented in the Go programming language (with about 40 000 lines of code). As the main developper of the tool, I also supervised the different people that work

or have worked on it. Goéland can be found at the following link: https:

//github.com/GoelandProver/Goeland

Woody Bledsoe Award

2022

IJCAR2022 | Haïfa, Israel

Student grant won at IJCAR2022 for the paper "Goéland: a Concurrent Tableau-Based Theorem Prover (System Description)"

Best Newcomer Prover

2022

CASC2022 | Haïfa, Israel

Award for the best new prover at CASC, a prover competition.

SCIENCE PROMOTION

Automated Reasoning: Techniques and Applications(a short introduction)

2023

University of Regensburg | Regensburg, Germany

Article in a series of books published by the university presenting each of its components.

The Importance of Popularisation

Promotion of sience popularisation through the experience of 3 minute thesis.

• Science radio programme | Divergence FM 2023

• University newsletter | University of Montpellier 2023

Introduction to Research

2023

Jules GUESDE high school | Montpellier, France

Presentation of the resarcher's work to high school students.

Who Killed Agatha?

Introduction to logical reasoning and software verification by solving riddles.

• Regional academic delegation to research and innovation | 2022 LIRMM, France

• LIRMM's open days | LIRMM, France 2022

Introduction to Computer Sciences

Girls and STEM

Exchanges between female high school students and female scientists about computer science, to promote girls in science.

• Girls and Maths | Women and Maths, Animaths 2023

• MathsC2+ | French Mathematics Society, Ministry of education, Animaths 2022

Introduction to Logic

2020-2023

LIRMM | Montpellier, France

Multiple presentations of logic towards administratives managers, scientists from outside the field or interns. Introduction to logic in everyday life with puzzles and debates.

COLLECTIVE TASKS

Since Sept. 2023

Faculty of Informatics and Data Science | Regensburg, Germany Addition of articles and various updates

Dec. 2022 - Sept. 2023

University of Montpellier | Montpellier, France

Reflection group on the needs of researchers in the scope of the "HR Excellence in Research" label.

Mar. 2022 - Sept. 2023

LIRMM | Montpellier, France

Organisation of scientific and cultural activities for the laboratory's doctoral students.

Doctoral School Council (I2S, ED166)

Jun. 2021 - Sept. 2023

12S | France

Doctoral students' representative in the doctoral school council.

.......

Laboratory Council

Oct. 2020 - Sept. 2023

LIRMM | Montpellier, France

Doctoral students' representative in the laboratory council.

PROFESSIONNAL EXPERIENCES

Project Leader in Clinical Supply Chain

Aug. 2019- Sept. 2020

Sanofi | Montpellier, France

- Project leader of the software migration for translation of drug leaflets.
- Data visualisation and criticality analysis of the application park.
- Documentation and validation strategies.
